

Wi-Fi

Provides wireless internet access for guests and visitors and also provides encrypted access for those who are a part of the Yale campus.

Eduroam

Eduroam allows visiting students, researchers and staff from participating institutions to obtain Internet connectivity across campus by using their affiliated institution credentials.

Features: Yale people traveling to other participating institutions can use the eduroam network by authenticating with their Yale credentials. The logon format is 'username@home university', and the example for Yale would be netid@yale.edu.

Who can use it? Visitors from participating institutions. Yale people with netids traveling to participating institutions.

How much does it cost? Its free.

How do I get it? Use wifi network eduroam.

YaleGuest

The YaleGuest network allows access to a segregated portion of the Yale University wireless data network. The Yale University guest wireless network is a limited wireless data network provided for guests of the University. No username or password is required. The YaleGuest network is insecure (open and unencrypted).

Who can use it? Visitors to the Yale campus.

How much does it cost? The service is free.

How do I get it? The service is publicly accessible.

Where can I get help? Problems with campus network connections should be reported to the ITS Help Desk at 203-432-9000.

YaleWireless

YaleWireless provides wireless internet access for guests and visitors and also provides encrypted access for those who are a part of the Yale campus. Yale Wireless is an alternative, non-encrypted network for anyone with a NetID. Yale Wireless counts as "on the Yale network". To use Yale wireless, register your computer or device on the network.

Who can use it? Anyone on the Yale campus with a registered device.

How much does it cost? The service is free.

How do I get it? The WiFi signal is broadcast with the SSID "yale wireless."

FAQs and other resources: Problems with campus network connections should be reported to the ITS Help Desk at 203-432-9000.
